

Aleksandar Hajduković - experienced developer – B.Sc. in Electrical Engineering – self employed/contractor.

I am involved in creating SaaS products, web products (shops, websites, blogs), web services and integrations. I have 18 years of experience in implementing, architecting IT solutions for various industries and modeling and administering SQL databases.

Highly responsible and trustworthy.

Website: www.kvadrati.com

Currently, I am doing my best to create B2B SaaS services that have great value proposition for the customers, focusing on a user experience. Have three of them (Simple-Tasks.com, Dormito.re, Esponce.com). I am always opened for new opportunities (commercial products/projects or business proposals), website maintenance or daily system administration, so if you have you can something that can match my skillset, please contact me directly on halexix@gmail.com

Knowledge and Skill-set

- Server side programming: C#, ASP.NET, ASP.NET MVC, PHP
- Database side: MS SQL Server, MySQL, MongoDB
- Client side: HTML 5, CSS, Javascript, JQuery, Ajax, JSON, XML
- System administration: Windows 2008 R2/2012 Server, Windows 7/8, Linux (CPanel), Network, DNS
- Integrations: API REST architecture, SAP ERP systems, web services (WSDL, WFC)
- Managing tech team, CTO
- Solution and database architect
- Data mining and analytics
- Organized and focused
- Fluent in English, Slovenian, Serbian, Croatian, Montenegrin language and has basics in German language.
- Overall tech knowledge and experience in product launch

Working experience

- (2015-now) CEO, Kvadrati s.p. – product manager for SaaS services Simple-Tasks.com and Dormito.re, and working also as contractor on custom projects (www.kvadrati.com). Few long term customers are not listed (because of the NDA).
- (2011-2014) CTO, founder of [Esponce](http://Esponce.com) (cloud oriented mobile startup that allows businesses to reach their audience on mobile phones via QR Codes – for marketing managers we provided complete usage statistics).
- (2009-2014) CTO, founder of [Avivo](http://Avivo.com) (digital interactive agency) – we have done a lot of different interactive projects. Some of them were for: [Porsche Slovenija](http://PorscheSlovenija.com), [Alcon COPP iPad app](http://AlconCOPP.com), Simobil d.d. ([Superia](http://Superia.com)), [Realmac](http://Realmac.com), [Bawan](http://Bawan.com), [Evrosola](http://Evrosola.com), [Pionirski dom](http://PionirskiDom.com).
- (2007-2009) Become independant and joined the company Studio Bikini d.o.o.

- (2004-2007) [Metronik](#) and Hermes SoftLab d.d. (now [Comtrade](#)) actively on different projects for biggest Slovenian companies (pharmaceutical industry, food industry, electric power industry, construction industry – [Krka d.d.](#), [Lek d.d.](#), [Ljubljanske Mlekarnе d.d.](#), [Trimo d.d.](#), [Vodovod in Kanalizacija d.d.](#)). I was involved in creating information systems for these companies and he was doing different integration projects (with SAP, Bizerba, internal IT systems, with different hardware).
- (2000-2004) Alphatec (now [Levi9](#)) – worked as a senior software developer for various foreign companies (mainly independent project for digital agency [Clockwork](#), Netherlands)
- (2000-2004) Faculty FTN Novi Sad, Department of Information Technologies – teaching assistant
